

Blade[®]

The challenging part of selling high value merchandise is replicating the lighting effect upon the product when removed from the showcase for the customer to view.

No consultation area should be without a Blade. Multiple LED's within the Blade bring the merchandise to life unlike any other luminaire on the market.

Available in two sizes, Blade can be branded in your company's corporate colours/logo to give that extra style to your store.

*Now available with ActivWhite technology!

Using light creatively to drive sales
